

Customized Solutions

We'll meet you wherever you are on your cybersecurity journey to ensure you make the most impact with the resources you have.

We deliver tailored cybersecurity solutions, with a broad range of services from education, assessments, and dark web analysis to penetration testing and red teaming. It's rather common for engagements to include a number of custom services to improve your defenses – whether you're just getting started, or you have a highly advanced cybersecurity program. Maximize impact, minimize risk, and achieve resilience with the best in the field.

RED TEAM

Challenge your cybersecurity defenses with a simulated, real-world attack to evaluate your defenses, event detection, and incident response.

INTERNAL VULNERABILITY ASSESSMENT

Identify, classify, and prioritize internal network, server and application vulnerabilities to improve defenses.

AI/LLM EVALUATION

Evaluate the risks, vulnerabilities, and threats in AI systems. Ensure they are secure and meet relevant regulations and standards.

DARK WEB ANALYSIS

Continuously monitor the dark web to quickly respond to new threats targeting your assets and information.

NETWORK PENETRATION TEST

Experience a hands-on, live-fire exercise against external or internal networks to pinpoint vulnerabilities and assess real-world impact.

PHISHING SIMULATION

Help train employees, identify vulnerabilities, and strengthen defenses against real phishing attacks and data breaches.

WEB APPLICATION PENETRATION TEST

Launch controlled, simulated attacks on web applications to identify, exploit, and remediate security weaknesses.

CYBERSECURITY READINESS ASSESSMENT

Quickly measure your organization's cyber resilience and make an immediate impact with actionable insights.

EXTERNAL VULNERABILITY ASSESSMENT

Identify, classify, and prioritize external vulnerabilities visible from the internet to strengthen cyber resilience.

CYBERSECURITY EDUCATION

Provide an engaging, online learning experience that builds workforce confidence while creating a positive cybersecurity culture.

SKILLED AND EXPERIENCED

Our elite team, with top industry credentials and decades of hands-on experience, delivers our services in the most demanding environments.

COLLABORATIVE AND APPROACHABLE

We avoid jargon and technospeak, focusing on a collaborative relationship to ensure your success.

IMPACTFUL

Our team focuses on meaningful results, not merely checking boxes, to strengthen your cybersecurity posture.
